WORK EXPERIENCE

WeGoLook

UI Designer / Web Designer / Front End Developer

I have been in charge of a complete full scale website redesign and development as well as the complete redesign of our company's new app that is being used by more than 40K users currently. My current day to day operations range from designing new reports for our customer and implementing new A/B landing page tests as well as tending to our company's SEO needs.

January 2016 - Present │ Oklahoma City, Oklahoma, United States

---

Narrate

Art Director/Lead Developer

Taking care of client projects from start to finish including handling all communication and art direction from them as well as designing and developing client sites. I have focused mainly on wordpress in this position and have learned every inch of that platform.

February 2011 - January 2016 │ Oklahoma, United States

QuiBids

Web Designer/Developer

Created new ad campaigns for QuiBids and the sister company UrbanDealight. Designed and coded multiple pages for the site as well as newsletter campaigns. Trained multiple people to run the day to day graphic needs of UrbanDealight.

January 2010 - February 2011 │ Oklahoma, United States

FARMERS INSURANCE

Web Developer/Programmer

Creating multiple reports using ASP connecting to oracle databases. Implementing flash with oracle through asp.

January 2008 - May 2009 │ Oklahoma City, Oklahoma, United States

---

Scott And Scott LLC

Web/Media/Graphic Designer, SEO

Produced multiple legal web sites, print pieces, and e-mail campaigns
Installed, Designed, and Maintained a Content Management System
Managed multiple sites in which I used HTML, PHP, JavaScript, and CSS
Managed a full SEO Campaign for five legal web sites.

January 2005 - December 2007 │ Dallas, Texas, United States

EDUCATION

The Art Institute Of Dallas

Associates in Multimedia Design

My courses included everything from basic graphic design to graphic animation. I had a main focus on web design and development.
